HONOLULU, MAY 8, 1888:

The receipts from domestic ports, during the week, were 50,036 bags angar, 860 bags paddy and rice, and a variety of other pro-duce.

The aggregate value of shipments to San Francisco, including the cargo of the Bidge way from Kahului, was \$489,483.10.

Following is Williams, Dimond & Co.'s Circular, by last mail : Sex Francisco, April 24, 1888.

Dran Sin:-Our last circular was dated March 27th, per Australia. SUGAE—The condition of the local market remains unchanged, and prices of refined are

the same as the last quoted.

The American Refinery has finished loading the ship Heary B. Hyde for New York, which is the second vessel loaded by that Refinery this year. The only change to note in the Cuba Basis, stace our last circular, is an advance of 1-16c on the 11th instant, making the basis 55c for 95 test. Since that date there has been no further change re-

Eastern and Foneton Markets.—The general condition of the New York Market has improved since our last report, and prices of Haws have advanced fully 1-16c per lb. The demand for refined has been

quite active and increasing.
Our latest mail advices from New York, of the 18th instant, state that the business transacted in Raws for the week ending on the above date was limited, but this was ewing to the firm views of holders, who are unwilling to make any concessions, and, in me instances, have asked higher prices than have yet been paid. Buyers have also been rather indifferent until recently, but more interest is now being displayed every day, and they are disposed to bid full figures

on large lots.

The London Market has shown very little improvement in prices for the month, but generally the feeling is firm, and higher prices looked for in the near future.

Beet has ruled rather dull, with slight fluctustions. Prices reached as high as £14 lls 2d on the 9th instant, but declined again to £13 9s on the 17th instant, and our latest quotation is £13 3s. The Cuba crop is nearly completed, and the estimated yield shows a decrease of 10 to 20 per cent, compared with last year. Prices are quoted firm on basis of 4 13-16c for Muscovada 89 test, and 5 of for 50 test Centrifugals. On cost and freight 354c for 96 test Centrifugals near at hand, and buyers have bid 3 3-16c for loading carroes, but sellers ask 35cc. Museovado is held at 25cc for 89 test, with 243-16c bid. Offerings are light in both instances. BEET CHOP—Cables of the 15th instant

It is stated on good authority that none of the cane crops now marketing will reach last year's figures in size. The statistical posi-tion of the world's supplies for the next six months surely point to an advancing market.

Stocks at four ports, U. K., for the week ending April 14th were 3,500 tons under last week, or 224,680 tons against 202,574 tons same time last year. Receipts, 11,000 tons; deliveries, 14,500 tons.
For the week ending April 12th, the total

stock in the United States increased 3.033 4ons, but are now 12,823 tons in excess of last year against 22,568 tons excess the previous

Board of Health.

The weekly meeting of the Board of Health was held Friday afternoon. Present: Dr. N. B. Emerson, President; His Excellency L. A. Thurston, Hon. S M. Damon, Hon. J. T. Waterhouse, jr., and Mr. W. E. Rowell, members; Dr. Kimball, Government physician of Honolulu; Mr. W. G. Ashley, Secretary; Captain J. H. Brown, Agent, and Mr. C. B. Reynolds, Officer, of the Board, and representatives of the Gazette and Ad-

Professor Van Slyke's report of analysis of water, two samples, from Koloa, Kagai, was received. It showed the water to be contaminated very badly, carrying some ingredientssuch as free ammonia, albumenoid ammonia and chlorine in quantitythree times that sufficient to condemn water for household use.

Mr. Thurston moved, seconded by Mr. Damon, and it was resolved, that Dr. Smith, Agent of the Board on Kauai, be sent a copy of this report, with instructions to have the nuisance abated.

Several netitions were received and acted upon. One man advanced in life, who believed himself a leper although not medically confirmed as such, had sold all his property and asked permission to live, at his own expense, with his leprous wife on Molokai. This petition was granted. Three or four other petitions of persons wanting to visit or live with leper relatives at the settlement were

The President reported another leper escaped from the branch hospital the previous night, under circumstances indicating active co-operation from the outside. He suggested an outside patrol to prevent escapes.

Mr. Damon said eight men would be required, and questioned if the expense would be warranted.

The President thought one man would do, with the electric light asked

Mr. Thurston, as Minister of the Interior, stated that they could not figure on the electric light, as the plant would not sustain more lights than now existed. With regard to the dirt on the streets referred to the previous week, he continued, the only material put on private lots was in a few cases where the premises were close to the operations. There had been some taken from Bethel street without his knowledge; but when brought to his notice it was stopped. They had only two carts for the street cleaning. Carts could be had from the road department for taking sand

to the hospital grounds. Dr. Kimball's letter of acceptance of the position of Government physician in Honolulu was reported.

Joseph, Jas A Janson, Arvid

The Secretary mentioned a verbal \$2,245. Among the cargo are 20 cases, 5 complaint made to him of a nuisance barrels and 10 kits salmon. Lake, G M near Hon. J. A. Cummins' residence at Pawaa, consisting of offensive material spread on vegetable patches by Chinese. The Agent was authorized to investigate the matter.

Marshal Soper had notified the Board of a collection of unlicensed dogs in custody of the police. Some of the animals were diseased, the others redeemable on payment of the Captain Brown, as a member of the

Board for the Suppression of Diseases among Animals, was instructed to condemn all the diseased dogs. Mr. Damon made the suggestion, which was adopted, that the Marshal

be recommended to continue the suppression of unlicensed dogs. The public meeting of the Board was

then declared adjourned, the members alone remaining to consult upon certain matters of importance.
